

## SYSTEM DESCRIPTION

EZ-RO 200/5G-BL

Reverse osmosis system for drinking water. The system is designed to provide clean, safe drinking water by removing impurities and contaminants. It is suitable for residential and commercial use.

## APPLICATIONS

Drinking water

## FEATURES • BENEFITS

• Removes up to 99% of total dissolved solids (TDS) and other impurities.  
• Provides clean, safe drinking water.  
• Easy to install and maintain.

• Compact design, suitable for small spaces.

• High flow rate, providing up to 200 gallons per day.  
• Long life span, up to 5 years.  
• Low maintenance requirements.

• Easy to operate and use.

• Available in various sizes and configurations.

• Suitable for residential and commercial use.  
• High efficiency, providing clean water quickly.  
• Low energy consumption.
