- Microprocessor-controlled LED light source has the ability to synchronize with the IntelliBrite® 5g LED Pool Lighting

MagicStream Laminars with synchronization with IntelliBrite 5g LED color and white lights and IntelliBrite Architectural Series create clear, uniform arcs of moving water that originate from either a pool deck or surrounding landscape. At night, these translucent streams are brilliantly colored, creating a water effect that adds elegant entertainment to your poolscape. It is fully compatible with the IntelliBrite® 5G line of LED pool lights, optional Color Sync Controller and IntelliCenter®, EasyTouch® and IntelliTouch® Automation Systems. Custom program and control light shows using an indoor control panel, wireless remote and the ScreenLogic® Interface using your smart phone, computer or mobile digital device.
